Selling and buying forms

Once landed on this page, all three sections (textbook, material, misc) will be collasped and users will have to manually click the "plus" button to add an item

- filtering by "sellers" and sort by "recent date" will be the default option

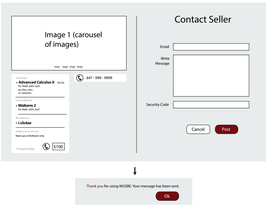
- to unsort or unfilter an option, click option again, white cross will appear when hovered over

Edition sort only appears when "textbooks only" option is selected

category filter drop down

hover over picture in listing, turns into maroon background plus the word "expand", click to contact seller

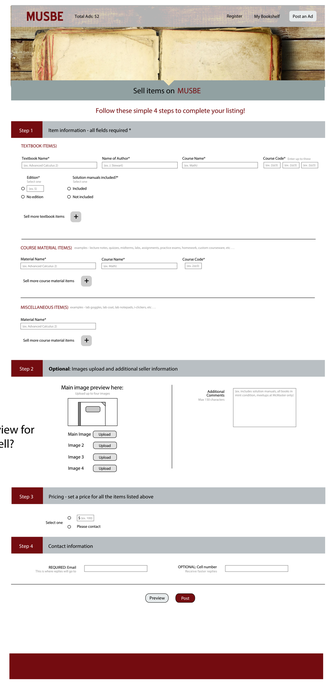
Contacting sellers modal



modal

Results will display relavent Course Material from the same course as the searched item

When clicked, goes back up just to where the search bar is accessible. Follows as you scroll down



Maybe put a preview for images 2 - 4 as well?
